Proceedings of the 18th USENIX Security Symposium
Montreal, Canada
August 10–14, 2009
THE USENIX ASSOCIATION

Since 1975, the USENIX Association has brought together the community of system administrators, developers, program-
ners, and engineers working on the cutting edge of the com-
puting world. USENIX conferences have become the essential
meeting grounds for the presentation and discussion of the
most advanced information on new developments in all aspects
of advanced computing systems. USENIX and its members are
dedicated to:
• problem-solving with a practical bias
• fostering technical excellence and innovation
• encouraging computing outreach in the community at
large
• providing a neutral forum for the discussion of critical
issues

For more information about membership and its benefits,
conferences, or publications, see http://www.usenix.org.

SAGE, a USENIX
Special Interest Group

SAGE is a Special Interest Group of the USENIX Association.
Its goal is to serve the system administration community by:
• Establishing standards of professional excellence and recog-
nizing those who attain them
• Promoting activities that advance the state of the art or the
community
• Providing tools, information, and services to assist system
administrators and their organizations
• Offering conferences and training to enhance the technical
and managerial capabilities of members of the profession

Find out more about SAGE at http://www.sage.org.
