Viles, Charles L., and James C. French, Availability and Latency of World Wide Web Information Servers	61–91
Walpole, Jonathan, see Casas	
Wheater, Stuart M., see Parrington	
Winterbottom, Phil, see Pike	

## *Title Index*

Adaptive Disk Spin-down Policies for Mobile Computers	381-414
Availability and Latency of World Wide Web Information Servers	61-91
Contributors to This Issue	93-94, 217-218, 255-307, 339-340, 415-416
Design and Implementation of Arjuna	255-307
Dynascope Directing Server: Design and Implementation	107-134
Editorial	1
Guest Editorial	343
Index to Volume 6 (1993)	101-103
Index to Volume 7 (1994)	104-105
Language with Distributed Scope	27-59
MPVM: A Migration Transparent Version of PVM	171-216
Note from the Managing Editor	219-314
Notes for Authors	95-100
Partially Connected Operation	365-380
Plan 9 from Bell Labs	221-253
Programming Interface for Application-Aware Adaptation in Mobile Computing	345-364
Site Configuration Engine	303-338
Stub Generation System for C++	135-169
Virtual Filesystem Interface in 4.4BSD	3-25
