

Proceedings of the
USENIX Mach Symposium

USENIX ASSOCIATION

November 20-22, 1991
Monterey, California, U.S.A.

Program and Table of Contents

Mach Symposium
November 21-22, 1991

Thursday, November 21

Opening Remarks	9:00 - 10:00
<i>Alan Langerman, Encore Computer Corporation</i>	
Keynote Address	
<i>John Ousterhout, University of California - Berkeley</i>	
MACH 3.0	10:30 - 12:00
A Fast Mach Network IPC Implementation.....	1
<i>Joseph S. Barrera III, Carnegie Mellon University</i>	
Generalized Emulation Services for Mach 3.0 - Overview, Experiences and Current Status.....	13
<i>Daniel P. Julin, Jonathan J. Chew, and J. Mark Stevenson, Carnegie Mellon University; Paulo Guedes, Paul Neves and Paul Roy, Open Software Foundation Research Institute</i>	
DOS as a Mach 3.0 Application.....	27
<i>Richard Rashid, Gerald Malan, David Golub, and Robert Baron, Carnegie Mellon University</i>	
USER MEMORY MANAGEMENT	2:00 - 3:30
A Causal Distributed Shared Memory Based on External Pagers.....	41
<i>Fabienne Boyer, Unité Mixte Bull-IMAG/Systèmes</i>	
Supporting Structured Shared Virtual Memory Under Mach.....	59
<i>Ray Bryant, Paul Carini, Hung-Yang Chang, and Bryan Rosenburg, IBM T.J. Watson Research Center</i>	
Managing Discardable Pages with an External Pager.....	77
<i>Indira Subramanian, Carnegie Mellon University</i>	
OSF/1	4:00 - 5:30
OSF/1 Virtual Memory Improvements.....	87
<i>David Black, Open Software Foundation Research Institute; Jeff Carter, George Feinberg, Rod MacDonald, Jim Van Sciver and Ping Wang, Open Software Foundation Development; Shashi Mangalat, Encore Computer Corporation; Eric Sheinbrood, Workstation Solutions, Inc.</i>	

Parallelizing Signal Handling and Process Management in OSF/1..... 105
Don Bolinger and Shashi Mangalat, Encore Computer Corporation

Mach Resource Control in OSF/1..... 123
David W. Mitchell, Open Software Foundation Development

Friday, November 22

MACH INTERFACES 9:00 - 10:30

Mach Interfaces to Support Guest O.S. Debugging..... 131
Rand Hoven, Hewlett-Packard

Kernel Support for Network Protocol Servers..... 149
Franklin Reynolds and Jeffrey Heller, Open Software Foundation Research Institute

An I/O System for Mach 3.0..... 163
Alessandro Forin, David Golub, and Bryan Bershad, Carnegie Mellon University

CHANGES TO KERNEL MEMORY MANAGEMENT 11:00 - 12:30

Moving the Default Memory Manager Out of the Mach Kernel..... 177
David B. Golub and Richard P. Draves, Carnegie Mellon University

User-Level Physical Memory Management for Mach..... 189
Stuart Sechrest and Yoonho Park, University of Michigan

Page Replacement and Reference Bit Emulation in Mach..... 201
Richard P. Draves, Carnegie Mellon University

REAL TIME, RELIABILITY, COMPARISON 2:00 - 3:30

Evaluation of Real-Time Synchronization in Real-Time Mach..... 213
Hideyuki Tokuda and Tatsuo Nakajima, Carnegie Mellon University

How to Design Reliable Servers using Fault Tolerant Micro-Kernel
Mechanisms..... 223
*Michel Banâtre and Gilles Muller, IRISA/INRIA; Pack Heng and Bruno Rochat,
SULL Research*

The File System Belongs in the Kernel..... 233
Brent Welch, Xerox Palo Alto Research Center

Alternate Paper

4:00 - 4:20

Distributed Trusted Mach Architecture..... 251
Edward John Sebes, Trusted Information Systems

Program Committee

Alan Langerman, Chair
Encore Computer Corporation

Susan LoVerso
Encore Computer Corporation

Larry Allen
Open Software Foundation

Melinda Shore
Cornell University

Nawaf Bitar
Hewlett-Packard Company

Michael Young
Transarc
