Founded in 1975, USENIX, the Advanced Computing Systems Association, is dedicated to supporting the community of engineers, system administrators, scientists, and technicians working on the cutting edge of the computing world. Our mission is to:

- Foster technical excellence and innovation
- Support and disseminate research with a practical bias
- Provide a neutral forum for discussion of technical issues
- Encourage computing outreach into the community

We always welcome the input, participation, and suggestions of our members regarding the organization. This is your community—we encourage you to get involved!
