Location Independent Security Approach (LISA)
Your office network is a liability.
LISA Principles

Trust identity and health

No trust in office network

Device isolation
Trust identity and health, not location.
Treat your network like a coffee shop.
Architecture
Endpoint Checks
Implementation

Collect, Create, Configure
Collect Use Cases
Create Exception Networks
Configure Infrastructure

VPN, Pilot, Cut
Automated Deprovisioning

Match port to email address
Benefits

Reduced risk and effort

Simplified network and cost savings
Benefits

Easy implementation

Fits more companies
Lessons Learned

Communicate and collaborate
Lessons Learned

Be thorough
Next Steps
