

# 14th USENIX Conference on File and Storage Technologies (FAST '16)

Sponsored by USENIX in cooperation with ACM SIGOPS

February 22–26, 2016, Santa Clara, CA, USA

## Important Dates

Paper submissions due: **Monday, September 21, 2015, 9:00 p.m. PDT**  
 Notification to authors: **Monday, December 7, 2015**  
 Final paper files due: **Tuesday, January 26, 2016**

## Conference Organizers

### Program Co-Chairs

Angela Demke Brown, *University of Toronto*  
 Florentina Popovici, *Google*

### Program Committee

Atul Adya, *Google*  
 Andrea Arpaci-Dusseau, *University of Wisconsin—Madison*  
 Angelos Bilas, *University of Crete and FORTH-ICS*  
 Jason Flinn, *University of Michigan*  
 Garth Gibson, *Carnegie Mellon University and Panasas, Inc.*  
 Haryadi Gunawi, *University of Chicago*  
 Cheng Huang, *Microsoft Research and Azure*  
 Eddie Kohler, *Harvard University*  
 Geoff Kuenning, *Harvey Mudd College*  
 Kai Li, *Princeton University*  
 James Mickens, *Microsoft Research*  
 Ethan L. Miller, *University of California, Santa Cruz, and Pure Storage*  
 Sam H. Noh, *Hongik University*  
 David Pease, *IBM Research*  
 Daniel Peek, *Facebook*  
 Dan R. K. Ports, *University of Washington*  
 Ken Salem, *University of Waterloo*  
 Bianca Schroeder, *University of Toronto*  
 Keith A. Smith, *NetApp*  
 Michael Swift, *University of Wisconsin—Madison*  
 Nisha Talagala, *SanDisk*  
 Niraj Tolia, *EMC*  
 Joseph Tucek, *Hewlett-Packard Laboratories*  
 Mustafa Uysal, *VMware*  
 Carl Waldspurger, *CloudPhysics*  
 Hakim Weatherspoon, *Cornell University*  
 Sage Weil, *Red Hat*  
 Brent Welch, *Google*  
 Theodore M. Wong, *Human Longevity, Inc.*  
 Gala Yadgar, *Technion—Israel Institute of Technology*  
 Yiyang Zhang, *Purdue University*

### Steering Committee

Remzi Arpaci-Dusseau, *University of Wisconsin—Madison*  
 William J. Bolosky, *Microsoft Research*  
 Jason Flinn, *University of Michigan*  
 Greg Ganger, *Carnegie Mellon University*  
 Garth Gibson, *Carnegie Mellon University and Panasas*

Casey Henderson, *USENIX Association*  
 Kimberly Keeton, *HP Labs*  
 Erik Riedel, *EMC*  
 Jiri Schindler, *Simplivity*  
 Bianca Schroeder, *University of Toronto*  
 Margo Seltzer, *Harvard School of Engineering and Applied Sciences  
and Oracle*  
 Keith A. Smith, *NetApp*  
 Eno Thereska, *Confluent*  
 Ric Wheeler, *Red Hat*  
 Erez Zadok, *Stony Brook University*  
 Yuanyuan Zhou, *University of California, San Diego*

## Overview

The 14th USENIX Conference on File and Storage Technologies (FAST '16) brings together storage-system researchers and practitioners to explore new directions in the design, implementation, evaluation, and deployment of storage systems. The program committee will interpret “storage systems” broadly; everything from low-level storage devices to information management is of interest. The conference will consist of technical presentations including refereed papers, Work-in-Progress (WiP) reports, poster sessions, and tutorials.

FAST accepts both full-length and short papers. Both types of submissions are reviewed to the same standards and differ primarily in the scope of the ideas expressed. Short papers are limited to half the space of full-length papers. The program committee will not accept a full paper on the condition that it is cut down to fit in the short paper page limit, nor will it invite short papers to be extended to full length. Submissions will be considered only in the category in which they are submitted.

## Topics

Topics of interest include but are not limited to:

- Archival storage systems
- Auditing and provenance
- Caching, replication, and consistency
- Cloud storage
- Data deduplication
- Database storage
- Distributed storage (wide-area, grid, peer-to-peer)
- Empirical evaluation of storage systems
- Experience with deployed systems
- File system design
- Key-value and NoSQL storage
- Memory-only storage systems
- Mobile, personal, and home storage
- Parallel I/O and storage systems
- Power-aware storage architectures

- RAID and erasure coding
- Reliability, availability, and disaster tolerance
- Search and data retrieval
- Solid state storage technologies and uses (e.g., flash, PCM)
- Storage management
- Storage networking
- Storage performance and QoS
- Storage security
- The challenges of big data and data sciences

### Submission Instructions

Please submit full and short paper submissions (no extended abstracts) by 8:59 p.m. PDT on Monday, September 21, 2015, in PDF format via the Web submission form on the FAST '16 Call for Papers Web site, [www.usenix.org/fast16/cfp](http://www.usenix.org/fast16/cfp). Do not email submissions.

- The complete submission must be no longer than twelve (12) pages for full papers and six (6) for short papers, *excluding references*. The program committee will value conciseness, so if an idea can be expressed in fewer pages than the limit, please do so. Supplemental material may be appended to the paper without limit, however the reviewers are not required to read such material or consider it in making their decision. Any material that should be considered to properly judge the paper for acceptance or rejection is not supplemental and will apply to the page limit. Papers should be typeset in two-column format in 10-point Times Roman type on 12-point leading (single-spaced), with the text block being no more than 6.5" wide by 9" deep. As references do not count against the page limit, they should not be set in a smaller font. **Submissions that violate any of these restrictions will not be reviewed.** The limits will be interpreted strictly. No extensions will be given for reformatting.
- Templates and sample first pages (two-column format) for Microsoft Word and LaTeX are available on the USENIX templates page, [www.usenix.org/templates-conference-papers](http://www.usenix.org/templates-conference-papers).
- **Authors must not be identified in the submissions, either explicitly or by implication.** When it is necessary to cite your own work, cite it as if it were written by a third party. Do not say "reference removed for blind review." Any supplemental material must also be anonymized.
- Simultaneous submission of the same work to multiple venues, submission of previously published work, or plagiarism constitutes dishonesty or fraud. USENIX, like other scientific and technical conferences and journals, prohibits these practices and may take action against authors who have committed them. See the USENIX Conference Submissions Policy at [www.usenix.org/conferences/submissions-policy](http://www.usenix.org/conferences/submissions-policy) for details.
- If you are uncertain whether your submission meets USENIX's guidelines, please contact the program co-chairs, [fast16chairs@usenix.org](mailto:fast16chairs@usenix.org), or the USENIX office, [submissionspolicy@usenix.org](mailto:submissionspolicy@usenix.org).
- Papers accompanied by nondisclosure agreement forms will not be considered.

Short papers present a complete and evaluated idea that does not need 12 pages to be appreciated. Short papers are not workshop papers or work-in-progress papers. The idea in a short paper needs to be formulated concisely and evaluated, and conclusions need to be drawn from it, just like in a full-length paper.

The program committee and external reviewers will judge papers on technical merit, significance, relevance, and presentation. A good paper will demonstrate that the authors:

- are attacking a significant problem,
- have devised an interesting, compelling solution,
- have demonstrated the practicality and benefits of the solution,
- have drawn appropriate conclusions,
- have clearly described what they have done, and
- have clearly articulated the advances beyond previous work.

Moreover, program committee members, USENIX, and the reading community generally value a paper more highly if it clearly defines and is accompanied by assets not previously available. These assets may include traces, original data, source code, or tools developed as part of the submitted work.

Blind reviewing of all papers will be done by the program committee, assisted by outside referees when necessary. Each accepted paper will be shepherded through an editorial review process by a member of the program committee.

Authors will be notified of paper acceptance or rejection no later than Monday, December 7, 2015. If your paper is accepted and you need an invitation letter to apply for a visa to attend the conference, please contact [conference@usenix.org](mailto:conference@usenix.org) as soon as possible. (Visa applications can take at least 30 working days to process.) Please identify yourself as a presenter and include your mailing address in your email.

All papers will be available online to registered attendees no earlier than Tuesday, January 26, 2016. If your accepted paper should not be published prior to the event, please notify [production@usenix.org](mailto:production@usenix.org). The papers will be available online to everyone beginning on the first day of the main conference, February 23, 2016. Accepted submissions will be treated as confidential prior to publication on the USENIX FAST '16 Web site; rejected submissions will be permanently treated as confidential.

By submitting a paper, you agree that at least one of the authors will attend the conference to present it. If the conference registration fee will pose a hardship for the presenter of the accepted paper, please contact [conference@usenix.org](mailto:conference@usenix.org).

If you need a bigger testbed for the work that you will submit to FAST '16, see PRObE at [www.nmc-probe.org](http://www.nmc-probe.org).

### Best Paper Awards

Awards will be given for the best paper(s) at the conference. A small, selected set of papers will be forwarded for publication in *ACM Transactions on Storage (TOS)* via a fast-path editorial process. Both full and short papers will be considered.

### Test of Time Award

We will award a FAST paper from a conference at least 10 years earlier with the "Test of Time" award, in recognition of its lasting impact on the field.

### Work-in-Progress Reports and Poster Sessions

The FAST technical sessions will include a slot for short Work-in-Progress (WiP) reports presenting preliminary results and opinion statements. We are particularly interested in presentations of student work and topics that will provoke informative debate. While WiP proposals will be evaluated for appropriateness, they are not peer reviewed in the same sense that papers are.

We will also hold poster sessions each evening. WiP submissions will automatically be considered for a poster slot, and authors of all accepted full papers will be asked to present a poster on their paper. Other poster submissions are very welcome.

Information about submitting posters and WiPs will be announced at a later date.

### Birds-of-a-Feather Sessions

Birds-of-a-Feather sessions (BoFs) are informal gatherings held in the evenings and organized by attendees interested in a particular topic. BoFs may be scheduled in advance by emailing the Conference Department at [bofs@usenix.org](mailto:bofs@usenix.org). BoFs may also be scheduled at the conference.

### Tutorial Sessions

Tutorial sessions will be held on February 22, 2016. Please send tutorial proposals to [fasttutorials@usenix.org](mailto:fasttutorials@usenix.org).

### Registration Materials

Complete program and registration information will be available in December 2015 on the conference Web site.
