

**Proceedings of the  
17th USENIX Symposium on Networked Systems Design  
and Implementation (NSDI '20)**

**Errata Slip**

In the paper “Tiramisu: Fast Multilayer Network Verification” by Anubhavnidhi Abhashkumar, *University of Wisconsin - Madison*; Aaron Gember-Jacobson, *Colgate University*; Aditya Akella, *University of Wisconsin - Madison* (Tuesday session, “Network Verification,” pp. 201–219 of the Proceedings), the authors wish to make the following clarification:

Page 210, section 8.1, first paragraph:

**Original text:**

(b) 34 real datacenter networks operated by a large online service provider,

**Revised text:**

(b) 34 real datacenter networks operated by Microsoft,

Page 212, section 11, first paragraph:

**Original text:**

We also thank the network engineers that provided us real university and datacenter configurations.

**Revised text:**

We also thank the network engineers at Microsoft and other universities that provided us real network configurations.
