

As discussed with the poster committee, this paper has been accepted at IFIP International Symposium on Human Aspects of Information Security & Assurance (HAISA 2021), which is to be held 7-9 July 2021. Currently the paper is still in press.

The citation details that I have received are:

As at date of camera-ready submission, the DOI link is not yet working (presumably will be after the event on 7-9 July).

We have uploaded the author's accepted manuscript at <https://kar.kent.ac.uk/88357/>, if that link is necessary (there are no changes to the text in this copy).
